EXPERIENCE

Web Development Intern, Brand Executives

October 2023-Present

- Collaborated effectively with a cross-functional team to design and develop websites that met client requirements and business objectives.
- Leveraged WordPress to build and customize content management systems, empowering clients to easily manage and update their websites.

Personal Trainer, F45 Training

October 2022-Present

- Aid with the market and sales of the company to potential clients through social media, calls, and in-person methods
- Design and create posters and fliers to help with the marketing of the company as well as promote events
- Guide members throughout class by aiding with form and providing enthusiasm

Physical Therapy Aide, Advanced Physical Medicine and Rehabilitation

September 2021-October 2022

- Support Physical Therapists by helping patients manage pain and regain their mobility who are recovering from injuries
- Go through exercises with multiple patients at once, interpret and carry out exercise programs, prepare the patients for the PT, and keep the workplace clean and sanitized

OIT Help Desk, Rutgers University

February 2019-March 2020

- Provide general IT technical support to all three Rutgers campuses
- Troubleshoot and aid with fixing software/hardware issues as they arise
