## EDUCATION

### **FULL STACK WEB AND MOBILE DEVELOPMENT**, Nucamp

2023

- Learned Bootstrap, React, and React Native and implemented them into the creation of multiple applications and websites
- Operated Node.js, Express, and MongoDB to aid with back-end web development

### **UX/UI DESIGN PROFESSIONAL**, Coursera

2023

- Created dynamic wireframes using Adobe XD and Figma to optimize user experience on website and mobile applications
- Conducted studies and research in order to collect user experience data and eliminate biases

### **BACHELOR'S DEGREE**, Rutgers University

- Double majored in Exercise Science and English

## EXPERIENCE

### **Web Development Intern**, Brand Executives

2023-Present

- Collaborated effectively with a cross-functional team to design and develop websites that met client requirements and business objectives.
- Leveraged WordPress to build and customize content management systems, empowering clients to easily manage and update their websites.

### **Personal Trainer**, F45 Training

2022-2023

- Aid with the market and sales of the company to potential clients through social media, calls, and in-person methods
- Design and create posters and fliers to help with the marketing of the company as well as promote events
- Guide members throughout class by aiding with form and providing enthusiasm

### **Physical Therapy Aide**, Advanced Physical Medicine and Rehabilitation

2021-2022

- Support Physical Therapists by helping patients manage pain and regain their mobility who are recovering from injuries
- Go through exercises with multiple patients at once, interpret and carry out exercise programs, prepare the patients for the PT, and keep the workplace clean and sanitized

### **OIT Help Desk**, Rutgers University

2019-2020

- Provide general IT technical support to all three Rutgers campuses
- Troubleshoot and aid with fixing software/hardware issues as they arise
